A Money Losing Sale on Cloaks

Our entire stock of Cloaks must be sold. Now is the time to make your selections. A money losing sale prior to inventory. The greatest sacrifice we ever made. Every article we quote is a positive loss. It will pay you to see them at once, whether you wish to purchase or not.
We are losing money on

100 REMNANTS OF DRESS GOODS.

Losing money on Jeans, Cassimeres and Tweeds. We have an unusual large quantity of the goods we advertise. We have sold the goods consistently at the prices we say they are worth, and at the prices we now quote we know the like have never been known.
The line of Dress Goods we quote at 75c is far better than any dollar cashmere ever offered. The black satin rhadams we offer at 79c cannot be matched elsewhere for less than 1.25, and the black gros grain silk at 79c has been our bargain at 1.25. This will give you a small idea as to the great cut we are now making during our Great Money Losing Sale.

SPRING AND FIRST STREETS.

THE PEOPLE'S STORE

WISHES YOU ALL

A HAPPY AND PROSPEROUS NEW YEAR,

And Many Happy Returns of the Day.

With the commencement of the New Year it is meet and proper that we should outline our intended course of business.
Through the great increase in our business, and the superior facilities at our command, we are enabled to announce that all our goods will bear a less rate of profit than heretofore. During the last few months we have been negotiating with various manufacturers and their selling agents to purchase productions direct, thus saving the profits taxed on the goods by jobbers. In this we have been quite successful to a great extent, and all goods that we can use in quantity we will get direct, and be enabled to sell you at the prices usually dealers buy them at. This will be especially noticeable in our Domestic Dress Goods, Clothing, Boot and Shoe, Gents' Furnishing, Glove, Hat and Cap and Corset Departments.
In notions and many small wants we shall also make a marked reduction, and in Millinery and Hosiery our values will surpass anything we have been able to show you.
All our orders for spring goods have been placed with the manufacturers already, and we expect to show you, in variety and price, a stock of goods that will be appreciated by you and reflect credit upon us.
We will shortly open a separate Glove Department, where every pair, either in cotton, lisle, silk or kid, will be fitted to the hand.
With the opening of the spring trade we will open our men's, boys' and children's Straw Hat Department. Our word for it, you will see the cheapest and newest stock ever introduced in Los Angeles.
Our basement sales-rooms, 48x100, will be converted into a wholesale department, where we will sell all goods to the trade (for cash only) at such prices that you will soon realize the difference between buying at a credit dealing house and ours. We will be enabled to give you bargains that you cannot resist.

IN CONCLUSION

We beg to say that it has been our constant aim to sell as cheap as possible, and it will be seen that our increase in business from a space of 20x40 feet when we first started to 92x200 feet at present shows whether we have been doing so or no.
Whenever our business warrants it we reduce our general rate of profit, and we say, with the proof before us, that no house in the State, or elsewhere, sells goods throughout their store upon such a small rate of profit as we.
We thank you for your kind patronage, and assure you that if you have been pleased with our efforts in the past you will be more than so in the future. We treat every one fairly, have no friendship in business, and with public's patronage and gentlemanly conduct we trust to receive our share of the

The Evening Express is in a state of great unhappiness because the TIMES issued the county assessment lists for 1886 at what they were made by the assessor, to-wit, "nearly thirty-five millions of dollars less than last year." The fact that the State Board of Equalization raised the assessment 20 per cent., making the total nearly $42,000,000, (which fact is now repeatedly published by the TIMES) does not affect the correctness of the figures we gave, which were the assessor's figures, not the State Board's. The TIMES was right in its statement and the Express is wrong in its greenish criticism. It has been only a little while since that unhappy sheet was jumping stiff-legged because the TIMES used the higher figures. But it was right then, as it is now.

AMUSEMENTS.

"HOT WATER"—There was a large audience at the Grand Opera House last night, to witness the initial performance of *Hot Water* by the popular soubrette, Alice Harrison, and a very good supporting company. The piece is an uproarious extravaganza, full of indecent situations, with occasional hints of naughtiness, and with enough high kicking. It hinges on the pranks of two reprehensible married men with a little French actress thrown in for jealousy of their wives, and the blunders to which that jealousy leads—with the adroit aid of the chambermaid actress, who was, of course, Miss Harrison. She played the part con amore, with the suggestiveness which she knows how to put into her every part, and with Aimee and Lotta. Applause followed her every turn and kick. Frank Baird and C. W. Allison as "Colonel McSmythe" and "James McDoodles," respectively, "did" the recreant husbands well. George Kyle was good as "Prof. Smith," and Fred Matthews as "Brick Bailey," the very clever facial and physical contortionist. The "Champagne Carne" and the "Cigarette Chorus," by a band of four, were well done. The company will keep up the supply of *Hot Water* every evening this week and at Wednesday and Saturday matinees.

Kansas Social Union.

The Kansas Society met again last evening in the Emerald Club rooms. It being the first regular meeting of the year, a part of the evening was devoted to the election of permanent officers for the ensuing year. T. J. Palmer was elected President, W. G. Shaw and F. B. Colver Vice-Presidents, W. M. Bristol Corresponding Secretary, O. O. Stratton Financial Secretary, and Mrs. Dr. Minnis Treasurer. The remainder of the evening was spent in a pleasant social way. Several choice musical selections were rendered, and a very entertaining recitation given by Mrs. Dr. Wells entitled "A Successful Lawyer's Thoughts on the Devotions of His Wife." The Society is constantly increasing in interest to the many Kansans in our midst. A special programme has been prepared for next Monday night.

No Good.

The attention of the Historical Society of Southern California was called some time ago to an alleged "Succinct History of Los Angeles" published by the Express, and certain grave blunders made therein. A committee to whom the matter was referred as to the New San Gabriel River reported that the bed of the New San Gabriel river was not made "in 1868 by an earthquake," as the Express has it, but in 1825 by a flood; and that there never have been any such kind of earthquakes in this region. The committee further "finds many other chronological errors in the Express history," and "cannot indorse it as a reliable history of Los Angeles county in particular, or Southern California in general."

The Ohio Union.

All resident and visiting Ohioans should bear in mind the monthly social of the Ohio Union of Los Angeles at Opera Hall this evening. The TIMES has already published the generous and remarkably pleasing programme prepared by Signor A. Perini and his pupils. The entertainment will be well worth attendance.

SAN FRANCISCO.

Additional Points About Clerk McCarthy.

A COUPLE OF NOTES FROM HIM

Not Feeling Well, He Thinks He Will Go to Los Angeles—Legislating Against Sand-Lot Haranguers.

Associated Press Dispatches to The Times.

SAN FRANCISCO, Jan. 4.—State Controller Dunn came down from Sacramento yesterday to examine the accounts of J. W. McCarthy, Clerk of the Supreme Court, who departed suddenly on the steamer St. Paul Saturday afternoon for Honolulu. The investigation made shows, so far, a deficit of $12,345. This amount represents money which he, as Clerk, was authorized to draw from the State Treasury to meet payments for Supreme Court expenses. The loss, whatever it may be, will fall on the individuals to whom the debts were due, and not on the State. The irregular way in which McCarthy kept his accounts will render it difficult to establish what sums have been paid by him, unless the vouchers can be found. Investigation is also going on at Sacramento. Several days will be required to find out anything near the exact state of his affairs.

SOME NOTES FROM MCCARTHY.

In connection with the sudden departure on Saturday last of J. W. McCarthy, Clerk of the Supreme Court, for Honolulu, a letter was received by Deputy Myers to-day addressed "Frank Myers, Esq., Deputy Clerk of the Supreme Court, No. 121 Post street," which reads as follows:

SAN FRANCISCO, Cal., Jan. 2, 1886.—*Dear Frank:* I inclose you herewith my check for $171.10. Please cash the same and pay as follows: To J. J. Barry, $100; to McKinstry, $11.25; to McKee, $59.40. Total, $170.65. The amount due McKinstry is for his Sacramento expenses in November. The amount due McKee is for his court expenses at Los Angeles. Barry's is for his December salary.

Yours, J. W. MCCARTHY.

Deputy Williams also received the following letter, addressed "Col. S. Williams, Esq., Deputy Clerk Supreme Court, 121 Post street, San Francisco, Cal.":

SALIDA, Jan. 5, 1886.

My Dear Williams: I will take a trip to Los Angeles and San Diego. If am not back by the 10th I wish you would go to Sacramento and make my settlement. You have power of attorney on file to draw my warrant. Am feeling better, but must go where it is warm. Happy New Year. Yours truly,

J. W. MCCARTHY.

Both letters bear the San Francisco postoffice stamp of January 4th. The one from Salida is dated January 5th. Nothing further of any importance has been developed to-day in the investigation of McCarthy's accounts.

SARAH ALTHEA REDIVIVUS.

The probate of the will of the late Senator Sharon was called up before Judge Coffey to-day. Judge Tyler was present, and when the case was called arose and said: "On behalf of the divorced wife of William Sharon, deceased, I desire to protest against the probate of the will." Mr. Tyler then read a protest, in which he set forth that Sarah Althea Sharon, who was interested in the estate of Sharon, contested the probate of the will of deceased on the ground that Sharon, prior to his deceased revoked his will by executing a trust deed, whereby he disposed of all his property, real, personal and mixed, wholly inconsistent with the will now offered as his last testament. It is said that the attorneys for Sarah Althea Hill do not desire to set aside the will, but to pursue the course to bring the matter into court, in order that they may stand a chance to invalidate the deed of trust which di poses of about $12,000,000.

TYLER INDICTED.

George W. Tyler, leading counsel for Sarah Althea Hill in her famous case for divorce against the late Senator Sharon, was indicted to-day by the county grand jury for felony. The crime with which he is charged is being a party to a prepared affidavit in which one of the witnesses, Mrs. Clark, is made to say that Sharon had secretly told her Miss Hill was his wife. Two other persons, James E. Brown and Mrs. Wells, were recently indicted for the same offense with which Tyler is charged, and are now serving five years in San Quentin State Prison. Tyler was granted a week to file bonds.

THOSE CHINESE CERTIFICATES.

It is learned to-day that certificates empowering the holders to land in the United States were issued to the Chinese by the Chinese Consul at Yokahama, Japan. A Chinaman who arrived in the steamer Oceanic, December 19th, was landed on one of these certificates. They are countersigned by Warren Green, United States Consul General of Japan.

STATE RIGHTS DECISION.

The Supreme Court to-day rendered the following decision: No. 73, Herman Presser, plaintiff in error vs. State of Illinois in error to Supreme Court of Illinois. The principal error alleged is that of a State to prevent armed assemblage of a citizens and their parading as military companies when not organized as such under the laws of the State or of the United States. The Court affirms the judgment of the lower tribunal, holding that the State may prevent such assemblages. To deny this right it says would be to deny the right to disperse assemblages organized for sedition and treason, and the right to suppress armed mobs bent on riot or rapine.

THOMAS COLLIER HAS RESIGNED

SAN FRANCISCO, Jan. 4.—A special to the Examiner from Washington says: The following committee chairmanships are semi-officially announced as to be practically settled, though Speaker Carlisle is still far from the end of his task: Ways and Means, Morrison; District of Columbia, Ingalls; Public Lands, Cobb of Indiana; Public Buildings and Grounds, Dibble of South Carolina; Labor, O'Neill of Missouri; Education, Aiken of South Carolina; Elections, Mitchell of Connecticut; Postoffice and Postroads, Townshend of Illinois; Accounts, Dockery of Missouri; Printing, Barksdale of Mississippi. Wilkins of Ohio will probably be chairman of the Committee on Banking and Currency.

THE PRESIDENT GUARDED.

SAN FRANCISCO, Jan 4.—A special to the Chronicle from Washington says: Nobody believed the story telegraphed from Pittsburg about a party of Pinkerton detectives passing through that city en route to Washington to investigate an alleged conspiracy against the President's life. But it was true nevertheless. They were on duty at the White House on New Year's day, some of them in the parlors, others in the vestibule, and still more among the crowd outside on the lookout for cranks. It was an unusual thing. Formerly city detectives have been employed on these occasions but the presence of Pinkerton's force shows that the President either has no confidence in Washington detectives, or thought they were not sufficient, or both. The President receives a good many threatening letters, as all his predecessors did, and perhaps his life is in danger at times from cranks, but the White House was never so closely under police surveillance as now. General McCook, Secretary of the Senate, speaking of the President says: "I don't believe, however, he has any real cause of alarm.

DOWN ON THE SAND LOT MEETINGS.

The City Council to-night passed an order introduced by Supervisor Farwell, author of the work "The Chinese at Home and Abroad," making it a misdemeanor, with heavy penalty attached, to continue holding sand lot meetings which have done so much to create false impressions in the East, by making it appear that the only persons opposed to Chinese were sand lotters. Mr. Farwell made an address to the Board, in which he explained that the order was meant to apply more particularly to Coroner O'Donnell and his followers, who constantly harangued audiences on the ground to be proscribed and advocated violence to effect the expulsion of the Chinese from the Pacific coast. To show the necessity of some action on the part of the Board to suppress such agitation, Mr. Farwell read a letter from Congressman W. W. Morrow to him in which the writer mentions having had interviews with President Cleveland, Secretary Bayard and members of Congress, who all expressed themselves strongly in favor of the restriction of Chinese immigration, but deprecated violence and lawless measures to accomplish the desired purpose. Congressman Morrow goes on to say that his answer to these statements was that the substantial sentiment of the Pacific Coast now engaged in the effort to settle this question is not incendiary or violent. He further says: "It is going to be a hard matter to amend the law at all unless we are able to give some assurance that the people engaged in this agitation will be content with legal methods in the settlement of the question." The letter concludes with the assurances that an effort will be made to get anti-Chinese bills before the house at an early date.

BILLIARD TOURNAMENT.

The first match game of a billiard tournament, eight-inch balk line for $1000 and gate receipts, was played to-night at Platt's Hall, between Benjamin F. Saylor, and J. F. B. McCleery. Saylor to score 350 points to McCleery's 300. The latter won the match on the 38th inning, making his number when Saylor had 311. McCleery's highest run was 40, and Saylor's 59. To-morrow night Saylor will play with Alonzo H. Morris.

ARIZONA'S FINANCES.

Governor Zulick Shows Up the Territorial Balance Sheet.

WASHINGTON, Jan. 4.—In response to a request from Senator Harrison, Chairman of the Senate Committee on Territories, Governor Zulick, of Arizona, has furnished a statement of territorial debt, how incurred, etc. The statement shows that the Territory has outstanding warrants amounting to $120,948, upon which it pays interest at the rate of 10 per cent per annum. In the tabulated statement of bonded and floating indebtedness appear the following items: Insane Asylum bonds, $100,000; Gila river bridge, $17,000; Apache wagon road, $12,000; Territorial University, $23,000. The expenses of the last Legislative Assembly in excess of Congressional appropriations are shown to have been $6,153. The indebtedness of the several counties of the Territory aggregates $1,101,525. In concluding his report, Zulick says: "The enormous increase of debt is not due to appropriations may be properly characterized as useless and extravagant legislation and a wanton misappropriation of public funds to purposes from which the people received no corresponding benefits. The insane of the Territory are cared for at the asylum at Stockton, California, at $300 per year for 20 patient, which is much less than we could keep them ourselves, had we the asylum built. We require neither university nor normal school, nor wagon road and bridge bonds are properly county and not Territorial charges. For that last Territorial Assembly in excess of congressional appropriations for that purpose are, in my judgment, in clear violation of the federal statutes. We have to deal, when all appropriations of the last Assembly are provided for, of nearly $700,000, upon which the Territory must pay annual interest of over $30,000, as a result of the recklessness and extravagance of the legislative government.

DIME NOVEL WORK.

Some Youthful Burglars in Cincinnati.

CINCINNATI, Ohio.—A daring and unique burglary took place on Harrison Pike, just outside the city limits, at an early hour Sunday morning, the burglars being mere boys who were masked and conducted themselves in regular dime novel style. Theodore Woife lives in a small house a little apart from his neighbors. His wife was alone in the house, and sleeping. She was awakened by a knock at the front door, accompanied by the summons:

"Open this door or we will break it down; we're robbers," and then, while the woman was almost fainting with fright, the threat was executed and the masked marauders stood before her.

"Where is your money and your silverware?" demanded one of the robbers. The woman detected the voice of a boy attempting to speak like a man. She refused to give up her valuables, and one of the robbers threw her upon the floor and choked her, while the other went through the house, scattering everything right and left, and shattering and breaking all he could not strike a blow at. When the house had been thoroughly rifled, the two youths made good their escape and have not yet been arrested, nor is there any clue to the identity of either known to Mrs. Wolff. When Mr. Wolff returned, scarcely half an hour after the robbery had been committed, he found his wife nearly overcome with fear, and she has been dangerously ill ever since.

SACRAMENTO FRUIT GROWERS.

They Show a Disposition to Coalesce But Have Their Own Ideas.

SACRAMENTO, Jan. 4.—A meeting of Sacramento county fruit growers was held here to consider the by-laws of the constitution of the State Fruit Union. It was decided to suggest that shippers be admitted as the stockholders in the Union on taking 300 shares, and that section 10 of the by-laws be amended so as to provide that all shippers shall give the Union a sufficient guarantee of prompt payment of the cost of transportation upon demand. The meeting then adjourned to Friday, when the growers of Yolo, Placer and Eldorado are asked to participate.

JACK MORMONS.

An Editor in Chancery and a Saint Sentenced.

SALT LAKE, Utah, Jan. 4.—At Ogden to-day Editor Hemenway, of the Herald, convicted of libel, was called for sentence. Judge Powers said he had noticed the prosecution of the editor and he did not understand the libel laws, and on his promise of amendment in regard to the abuse of individuals, the Judge said he would give the editor a chance to show how real his reformation was, and suspended sentence to February 8th. D. M. Stewart, convicted of unlawful cohabitation, was sentenced by Judge Powers to-day by Judge Powers to six months imprisonment and $300 fine. He declined to promise obedience to the laws.

A Big Snowstorm.

CHICAGO, Jan. 4.—A severe snow and sleet storm, which has been raging throughout the northwest since Saturday, has badly interfered with telegraph wires in all directions. All lines west of here are down, and communication with the Eastern cities is uncertain. A dispatch received from Sioux City, Iowa, last night reported a blizzard there. Des Moines and Omaha also reported a heavy snowstorm, and a second dispatch reported the same throughout Minnesota and Dakota.

High-Handed Robbery.

EL PASO, TEXAS, Jan. 4.—While Mr. Robert, of the firm of Bossillier & Robert, brewers at Paso del Norte, was in his office to-day, he was approached by several men armed with revolvers and ordered to open the safe. He started to comply when his partner, Bossillier, entered and interposed. The robbers fired killing Bossillier and badly wounding Robert. The assassins escaped. The murdered man was one of the most prominent citizens of Paso del Norte.

British Steamer Sunk.

LONDON, Jan. 4.—The British steamer Chillingham has been sunk off Sicily by a collision. The previous report of the sinking of the Anchor Line steamer Sidonian proves untrue. The Chillingham was mistaken for the Sidonian and it was the sinking of the former that gave rise to the report that the Sidonian had been lost.

Tucson Fire.

TUCSON, Jan. 4.—The store of M. G. Roos, general merchandise, corner Camp and Convent streets, this city, was totally destroyed by fire at an early hour yesterday morning; loss, $40,000; no insurance.

WASHINGTON.

The Week's Business Mapped Out.

SPEAKER CARLISLE'S HOLIDAY TASK.

A Foreshadowing of the Chairmanships—Senator Beck the Lion of the Hour—The Mormon Bill.

Associated Press Dispatches to The Times.

WASHINGTON, Jan. 4.—The most interesting and important feature of the present week in the House of Representatives will be the announcement of memberships of the various committees, which will create the work to be done by the Forty-ninth Congress. Throughout the holiday recess Speaker Carlisle has been engaged in forming the committees, and to-day he occupied one of the rooms at the Capitol, and, denying himself to callers, devoted himself to the completion of his task. Unless something unforeseen should happen, the result of his labors will be announced to the House to-morrow, immediately after the reading of the journal.

Then, in obedience to the order of the House, the call of States for the introduction of bills and resolutions will be resumed at the point where it was interrupted by adjournment for the holidays. The call will probably not be completed until late Wednesday afternoon. The 1001 bills introduced the day before recess were introduced by 89 members—an average of over 11 bills to each Representative. Should this average be kept up, nearly 3000 additional measures will be referred on Tuesday and Wednesday to the newly-appointed committees.

The 49 hour Presidential succession bill remains upon the Speaker's table, and it is thought an attempt may be made to pass it by unanimous consent. It will, in all likelihood, be referred to the committee having jurisdiction over its subject matter. Should this be done the House will find itself on Thursday without any business before it, and an adjournment until Monday will probably be taken to enable the committees to organize and to consider and report proposed legislation.

The bill to fix the salaries of Judges of District Courts and the resolution of inquiry with regard to the action of the authorities of Dakota are the unfinished business of the Senate. The committees of that body are expected to begin work in earnest during the week, and it is expected that not much legislative work will be undertaken in the Senate other than the consideration of the two measures named. Probably a large part of the time of the Senate will be taken up with closed doors in an endeavor to dispose of the accumulated nominations.

CALIFORNIA WITH A GRIEVANCE.

The State of California to-day filed with Secretary Lamar complaint against the Commissioner of the General Land Office for not preparing patents for land certified to the State of California by Congress and subsequently confirmed to her in special act and approved to her by Secretary Browning in 1881, and certified to the State by Commissioner Wilson in the same year, which Land Commissioner Sparks has recently decided may be still further contested by any one desiring to claim both under the law.

HILL IN A HURRY FOR AN ASSISTANT TREASURER.

It is said at the Treasury Department that the President will probably nominate on Monday Assistant Treasurer for New York city to-morrow or next day, with a view of having the new appointee, if he shall have been confirmed by the Senate, take charge of the office and make a statement of the affair to Capt. Ramsey, and the belligerent cadets will have to face a court-martial. In the meantime a second class man is detailed daily to protect Cadet Dreggs, and members of the second class are highly indignant because one of them is kept on guard at the door of a fourth class man, and they intend to send a protest to the Secretary of the Navy.

GREAT BRITAIN.

Irish Home Rule to be Proposed—Other Notes.

LONDON, Jan. 4.—Lord Randolph Churchill has submitted to the Cabinet a proposition for a reform of the administration of government in Ireland. The scheme is supported by the Earl of Carnarvon, Lord Lieutenant of Ireland, and by Baron Ashbourne, Lord Chancellor. The project involves the abolition of the Vice Royalty and Castle Executive, and placing Ireland on the same footing as Scotland, having a Secretary in the Cabinet. If Ireland adopts the measure, it will be presented to Parliament, together with a scheme for local government, which has already been decided upon.

KEENE.

The Actor Stricken with Paralysis.

KANSAS CITY, Jan. 4.—Keene's manager decided to-night to cancel his engagements for this week and next. The following week is to be played in Memphis. The actor's malady is complete paralysis of the right side, and while it is not considered dangerous, yet his memory and speech are somewhat impaired temporarily.

SANTA BARBARA.

A White Laundry Swamped—Unusual Frost.

SANTA BARBARA, Jan. 4.—The steam laundry, which was started about a week ago as the first anti-Chinese step, has temporarily suspended, on account of lack of competent white labor.

Frost has been very heavy for several nights. At Dos Pueblos it did damage to tomato vines—very unusual.

"Sance for the Goose."

CHATTANOOGA, Tenn., Jan. 4.—This city has been thrown into considerable excitement by the announcement that the saloon keepers, against whom the Sunday law is being rigidly enforced, had sworn out nearly one hundred warrants against those engaged in all the trades and professions who do business on Sunday. The whisky men say they have been discriminated against, and propose to test the law to its full scope. The warrants include newspaper publishers, liverymen, and street-car drivers and conductors.

Assassinated.

SANTA ROSA, Cal., Jan. 4.—Andrew Johnson shot and killed John Boyd at the Ocean View House last Saturday. The parties are young men, and had a dispute the day before. While Boyd was watering his horse he was shot three times in the back, and died a few later. The assassin used a Winchester rifle and stood behind a chicken house. Johnson denies having done the shooting.

Grain in Sight.

CHICAGO, January 4.—The official statement of the Board of Trade gives bushels of grain in sight in the United States and Canada January 2d, and the amount of decrease or increase over the preceding week: Wheat 58,432,499; increase 112,093. Corn 7,950,543; increase 915,663. Oats 2,609,625; increase 28,807. Rye 755,484; decrease 51,544. Barley 2,214,928; decrease 28,248.

Trains Blockaded.

KANSAS CITY, Mo., January 4.—Overland trains are all delayed on account of snow west of here. Trains were made up on the Santa Fe and Union Pacific in Western Kansas to bring in the passengers from the blockaded through trains. It is growing colder here to-night.

Emperor William's Anniversary.

BERLIN, Jan. 4.—The twenty-fifth anniversary of the accession of Emperor William to the throne of Prussia was observed quietly yesterday. The Emperor held a reception which was attended by all foreign ambassadors and diplomats in the city.

Thick Ice.

TAUCKEE, Cal., Jan. 4.—Ice is four teen inches thick at Prosser creek, and the ice men anticipate the largest crop ever harvested.

THE BABY.

And How Grandpa and Grandma Mackay Dress It.

NEW YORK, Jan. 4.—A Paris letter to the World, of December 19th, says: "The young Prince and Princess Digalatro Colonna, the latter formerly Miss Eva Mackay, are rejoicing greatly over their splendid boy, just one week old. The outfit of the infant has just arrived in Paris from California. It was made in San Francisco. It is not in the least a sensational outfit, but is remarkable chiefly for the exquisite fineness of material and for the extreme delicacy of the stitching. Valenciennes lace being the trimming principally employed. The christening dress, a gift of Mrs. Mackay to her first grandchild, is entirely composed of Antigua Point D'Alencon of great beauty and extreme rarity. Duchess De Mouchy (Princess Anna Murat), who saw the dress before it was sent home, declared that it surpassed in beauty the famous christening robe of the late Prince Imperial.

Information About Los Angeles.

Persons desiring to receive, or to send abroad, information about Los Angeles city and county should write to the TIMES-MIRROR Company, inclosing 10 cents, for a copy of the Annual Trade Number of the LOS ANGELES DAILY TIMES, or a copy of the Special New Year's Edition of the LOS ANGELES WEEKLY MIRROR, which contains nearly 100 columns of reading matter, largely special reports relating to the resources, industries, climate, soil and productions of "Our Land."

California New-Year Papers.

The dear people of the coast have been handsomely remembered by the press in the holiday gift-giving. "Annuals" issued by the enterprising newspapers of California are a credit to each, and will bear comparison with those of the East. A number have reached the TIMES already, and will be digested at leisure—if the editorial digestive apparatus don't go to pieces entirely.

The Chronicle comes out with a superb twenty-page New Year's edition, crammed with facts and figures, pictures and maps, ably arranged—a clear index of California's growth during the year.

The Alta responds to the occasion with a handsomely illustrated number of twenty-four pages.

The Examiner spreads itself in twelve compact pages, full of meat.

The Sacramento Record-Union has sixteen pages and a power of good reading.

The Pomona Progress issues a creditable edition of eight pages, well arranged, and leading off with a special poem by Albert F. Kercheval.

The Los Angeles Express printed eight pages (one day after the fair), and the Herald will issue its New Year's number in the course of the month.

The LOS ANGELES DAILY TIMES and the WEEKLY MIRROR have already spoken for themselves.

LIEUTENANT WOODRUFF, one of the best officers in the Signal Service Bureau, thinks the cause of "cold waves" is not yet thoroughly understood. He explains that sudden changes of temperature succeeds or follows an area of low barometer, and a rise precedes such an area," and asks the following question: "Is the cold the effect of an area of high barometer, or is the area of high barometer due to decrease of temperature?" It is a fact that the predictions of the approach and progress of cold waves are frequently wrong, and that the worst cold waves follow severe storms. This is particularly true of California, as observation proves. There is always, at such times, some danger to tender plants and young sub-tropical trees, in exposed localities, on the coast.

It is quite probable that within the year 1886 a pipe line will be constructed to convey the petroleum product of the Newhall fields to Los Angeles, and thence to the sea, where ship and oil may be brought together, and the fuel problem in ocean commerce be solved. This will be a grand event in the industrial progress of this city, and will create a new source of wealth, worth millions. It will do more than anything else to render a supply of cheap and desirable fuel available, and will stimulate manufacturers proportionately. It will call into existence refineries, and will give to Los Angeles the commercial leverage of handling the product—an advantage which this city ought to have enjoyed since the first opening of the Newhall wells. The pipe line will be, in every sense of the word, a big thing, and it is sure to come.

LOS ANGELES COUNTY produces some things besides fruit, wine and oil: It produces poets. The very atmosphere is rife with sentiment and romance, and the local bards, like lightning-rods, catch it and bring it to earth. Seriously, there are many creditable versifiers in the community, as the columns of the local press attest. Two of the number, at least, have published books of poems. Others would publish books if they thought they could get anybody to read them. Ina D. Coolbrith, who is a real poet and whose title is written in the scrolls of fame, once lived in Los Angeles. Other writers of verse, who might have moved away as well as not, have not done so. There is ope real poet still residing in Los Angeles county. Who that one is we will not state, leaving the matter so that each rhymer of the lot may appropriate the compliment and feel happy.

SENATOR MILLER will disappoint the Democrats and bring confusion upon his enemies yet. A private letter, of date December 24, received by the editor of the TIMES from a gentleman very near to the distinguished Senator, says:

"The Senator has been confined to his room since his return from California, unable to transact business, the fatigue of the long journey having pulled him down somewhat. He is now, however, improving rapidly, and I think will be able to take his seat when Congress reassembles on the 6th prox. The newspapers here have had some cock-and-bull stories concerning his condition. If they reach California, sit down on them. He is recovering as rapidly as a man could who has been reduced by such severe illness as he went through this fall."

ONE of the products for which Southern California is justly noted is babies. While it is not feasible to go into statistics to prove this assertion, it is still well founded, as thousands of proud fathers and doting mothers can attest. Couples who have lived half their married lives elsewhere with a certain unfulfilled wish at the bottom of their hearts, come to Southern California and are straightway blessed with twins. The spirit of increase is abroad in the land. If anybody disputes this, we will call it triplets. All good couples who want babies have babies, and some who don't want them get them thrown in for good measure. It is a prolific country.

CAPTAIN EADS has obtained from the Mexican Congress an additional concession for his ship railway. The bill as passed by Congress last week adds 1,700,000 acres to the previous land grant, the whole of which is now about equal to half the area of the State of New Jersey. Coaling stations are to be permitted at either end of the railway, to which coal from the United States, or any other foreign nation co-operating with Mexico in guaranteeing interest on the bonds of the railway company, is to be admitted free, to the exclusion of coal from all other countries. This will give a new market to the United States coal trade, if the United States Congress joins with Mexico in the guarantee on which the bonds to build the ship railway are to be based. Mexico guarantees the payment of $1,250,000 a year for 15 years, provided some European nation guarantees $2,000,000 for the same period. The time for completing the road has been extended to 1894.

THE Nashville American publishes an interesting article showing that in the South the blacks are more valuable as free laborers than they ever were as slaves. It says that farmers and planters in Tennessee have found by experience that $100,000, or $50,000, or $20,000, invested in farming property now, will pay a better interest on the investment than it would ever have paid before the war.

TRIFLES OF THE TIMES.

A FUDY.

I saw a thing upon the street
That was a mystery stalking!
It had a ring upon its hand,
And with a cane 'twas walking.

It twisted it up, it twisted it down,
Then swung it very meekly;
But when it met a lady fair
It took my breath completely.

A single glass it lifted then
And to its right eye pressed it;
The other one it squinted up;
As though some pain distressed it.

I think they called the thing a dude—
I'm sure 'twas hardly human;
'Twas lacking in all things that make
The earnest man or woman.

Dr. Munhall Criticised.

To the Editor of the Times—SIR: In Dr. Munhall's Sunday talk to women he said many excellent things, but others that needed modification.

The style of woman who carries a dog and ignores her baby was given too much prominence, especially when seldom, if ever, seen on the streets of this city.

That American women—some of them—do not take enough out-of-door exercise is true, but that this is the sole or even chief cause of ill-health is not true.

Rowing, walking, riding, and out-of door games are every day making the girls of this nation physically better than our mothers, and this fact shou'd not be ignored.

English women are stronger and less nervous than American women, but it is equally true that English men are stronger and less nervous than American men.

Some women do not teach their children to cough, but it must also be remembered that this is the age of the cooking school, where rich women of sense—and there are as many sensible women among the rich as among the poor—take their daughters to the cooking school, attend themselves, and often pay their servants' tuition at the same place.

Some women read novels, and Scott, Thackeray, Dickens, Eliot, and others of a like class, are as necessary to a well-trained mind as history or philosophy.

That American girls are, in any great majority, a silly, senseless, helpless set of novel-readers cannot be proven. But the reverse is easily shown to be true.

We have hundreds of colleges now open to women, and from them graduate every year many hundreds of well-educated, well-balanced, sensible young women. Only last fall, in the city of Chicago, I saw a young lady—her mother a well-known physician—who had taken the honors in Greek in a large class of young men. And she is not a lone exception.

The average is as sensible as her brother, and does not—I venture the assertion—read silly novels as often as he does those of the Red-handed Jack variety. I refer now to young people of the schools.

Women should work at whatever they please, never to the neglect of the family, of course, unless compelled by poverty, as many are, to get bread for their family. But no woman should work simply to help her husband, that is, with a view to a sacrifice of herself that he may be exalted.

But that may not have been intended.

No respectable work is a disgrace to woman more than to man, but it is not necessary that a woman do her coarse work any more than that a merchant keep his own store.

The rich woman who did her own washing had much better have hired some poor woman whose daily bread depended on her labor, and if she had no other work she would have been better employed making clothes for the same poor woman's children.

It was said that woman was queen of the home, and yet they had but just been told, as they doubtless had no money of their own (at housekeepers' prices) they would have a little sum), to take from their husband's money (all his?) to give to the Young Men's Christian Association, if they could not get it otherwise.

Think of anyone who could not buy a postage stamp, or pay a street-car fare!

It is no day to talk of women as an idle class.

As housekeepers their burdens are legion, and in my by no means unlimited acquaintance I number women who are ministers, doctors, lawyers, merchants, editors, bank clerks, printers, painters, notaries public, bookbinders, confectioners, milliners, cashiers, cousin takers, lecturers, clerks, teachers, and last, but by no means least, housekeepers or home makers. I have also seen a woman as docket clerk in the House of Representatives of a certain State, a woman in charge of the State historical rooms, as county clerk's deputy, and assistant city treasurer.

Others can testify to still more in the same line.

It is no day, either, to covertly sneer at old maids, even if certain classes are exempt. Florence Nightingale, Fredrika Bremer, Rosa Bonheur, Elizabeth Stuart Phelps, Louisa Alcott, and a host of others equally famous, are old maids.

I know one of the humbler class who refused to marry because her aged father objected, devoting herself to her parents and a dead sister's children. The father soon died, the sister's husband recalled the children, and she is an old maid, supporting, single-handed, herself and infirm mother. Does she deserve even a laugh at her expense?

And is bad cooking the cause of divorce when the reasons oftenest given are adultery and habitual drunkenness on the part of the men?

AN OLD MAID.

"Of the Highest Order."

[Pomona Times-Courier.]

We are in possession of an advance sheet of the Los Angeles Daily TIMES'S New Years number. It is a monument to the enterprise and industry of the TIMES people.

The New Years number of the Los Angeles TIMES is of the highest order of excellence, and is a credit to California journalism.

TWO GREAT "GERNALISTS."

Professor Savarin and Colonel Jolyork—They "Pronounce."

From the Los Angeles Herald, Jan. 1, 1886.

The year 1886 opens most auspiciously for Southern California, for Los Angeles county, for the Herald. In this last proposition we are particularly interested. The Herald is a journal almost coeval with the history of the prosperity of Los Angeles. It has largely contributed to the superb results which are in assured permanence around us. It has always expressed its own views in a masculine manner, and has always stood unflinchingly by the interests of this Southern country—by its pure wines, brandies, oranges, olives, limes, lemons, pomegranates—by all the witchery of production, which embraces every fruit known to the scriptural or classical story and includes the vulgar staple of potatoes. The public will doubtless be glad to know that prosperity, as through a golden cornucopiæ, is pouring in upon the Herald. Its name is known in the four quarters of the world. In India, in Afghanistan, in Persia, as well as in old Spain and Italy, the Herald circulates. Its subscription list, both daily and weekly, increases day by day. It has no vacation. It has no pet cranky projects. Here and there a fanatic may not like it, but we take great pride in the fact that, this blessed New Year's Day, the conservative and considerate Herald is the representative of this section. It has more circulation than all the daily journals of the tier of Southern counties put together, and its modesty alone prevents it from saying that it deserves this signal and phenomenal favor of the masses. We should accentuate this aspect of the matter if we had not in our mind's eye those old adages that "good wine needs no bush" and that "self praise is no praise."

The Flamboyant Flyer.

PROSPECTUS OF A NEW DAILY NEWSPAPER.

Prof. Savarin has come to the conclusion that there is still a long-felt want in Los Angeles that he will be able to fill. He has thrown away his fiddle and announces that on the 1st of March he will issue the first number of "*The Flamboyant Flyer.*" In his prospectus, issued last Friday, the Professor says:

"The Flamboyant Flyer is an assured success. It will circulate in every corner of the globe, including the Fiji Islands, Tartary, Afghanistan, Cochin China, Corea, Great Britain and Ancient Greece. It will express its views in an open, bold, unrestrained and virile manner. It will have no pet Cranky notions. The proprietor is aware that here and there some Fanatic may be found to oppose him, but the Flyer's certain phenomenal success will show that the public are with me. I announce that the Flyer will have a Circulation larger than all the Daily newspapers in the United States, Canada, New Jersey and Pennsylvania combined. I would accentuate this, but the Public knows me too well. Everyone knows that I can tell a Lie, but I won't. I delay the publication till the First of March that my paper may be Unique in its kind. Thoroughly artistic productions require time."

Done this First Day of January 1886.

SAVARIEL.

The Little Giant.

[New York Commercial Advertiser.]

Andy W. Francisco, late one of the editors and proprietors of the Toledo Commercial Telegram, [and formerly of the Los Angeles TIMES,] is rapidly, though not yet 60, to be one of the oldest journalists in Ohio, having been more than forty years in active service. He has been connected with newspapers in different parts of the State, having begun his apprenticeship in Cincinnati, where he quitted college, without taking a degree, to learn the art of printing, in order to fit him more thoroughly for his calling. He has done everything in a newspaper office from setting type to writing leading editorials. He is said to have more friends and acquaintances in Ohio than any member of his profession, being known by nearly everybody and being universally addressed as "Andy." Another of his distinctions is his size. He is remarkably diminutive in stature and is sportively spoken of as "The Giant." His figure is, however, entirely symmetrical, and he is noted for manliness of character. In the days when it was common in Ohio for men aggrieved by newspaper comment to walk into the office and inquire for the author of the offensive article, they were often confounded by the prompt assumption of the entire responsibility by the Lilliputian Andy. He looked so small and resolute that they were either afraid or ashamed to attack him.

[The above appreciative notice of an old confrère was probably written by Junius Henri Browne, the famous war correspondent, who is now engaged on the staff of the New York Commercial Advertiser. And he called Francisco "Andy's," and used to be with him on the Cincinnati Times "before the wah." Mr. Francisco is a resident of Los Angeles, with a pleasant home on Ninth street.—ED. TIMES.]

Not So Funny After All.

[Boston Herald.]

At one of the large retail clothing stores of Washington street an old lady, accompanied by a six-footer of a boy, both fresh from rural parts appeared. The old lady inquired: "Have ye an ulster overcoat tew fit this lad?" "Yes, ma'am," replied a pert salesman, "we have ulsters, varioloids, typhoids and all the fashionable styles." "Dear me, I remarked the aged woman, "I think I have made a mistake. Ain't this the general hospital? Come, Nathan, let us go tew some clothing store." And away they went, to the chagrin of the wouldbe witty clerk.

THE G. T. IN SANTA BARBARA.

How He Hails There To Rest and Grow Strong.

A TOURIST'S LETTER.

SANTA BARBARA, Cal., December 8, 1885.

—The health-seeker or other traveler on first landing on the Asiatic side of the Pacific ocean is given by the European-Americans there the degree of Globe-trotter, with right thereforth to affix the initials of honor, "G. T." to his or her name! Add surely a further degree is conferable upon those who, having trotted the world over for health or relaxation from over-work, finally reach this haven of delight. They will surely come to roost here with the birds of winter passage! And finding here that above all earthly sense of rest and peace, that sense of having left a world or care and chase and got to the halfway heaven, ought they not to be honored with the title of Fast Globe-trotter, with the name-style of "P. G. T."?

It may be an old story to Pacific dwellers, but to the rest of the world north of the tropics it will be never-ceasing wonder for spring to begin in the first days of December! Yet so it is here. The rains of last month have been succeeded by two weeks already of that elastic spring sunshine which seems to set Nature's heels to fairly dancing with the rhythm of the poetry and tune of the music in the air. *The new growth of 1885 has already begun here.* The hills and fields are of that vernal green which typifies ever-renewing youth and life.

We spent December 31 at the hospitable home of Mr. W. W. Edey, Santa Barbara's banker, and to see the familiar trees of our own New England associations—elm, sycamore, elder and others—all budding out anew, to hear the robins, bluebirds, thrushes and yellow-birds, just as in a New England April or May time, is a curious sensation for December. "Are these trees awake and their buds 'up for all day?' we asked. "Yes, indeed," was the reply, "this is our spring in Santa Barbara."

The hotels here are home-like indeed. The absence of trade, to any extent, keeps out that home-upsetting atmosphere of business pressure. Men and women pass their time together, and not in separate sex groups.

The Arlington is reckoned to be the best hotel on this coast. It is like a gentleman's country-seat, in the midst of gardens and with broad verandas, when its guests live most of the day, out of doors in the sunshine. The eastern veranda is like a sun-room, about 150 feet long and 26 feet broad, filled with the fragrance of roses, geraniums and verbenas.

The hotel table is supplied from Colonel Hollister's big ranch farm. All that is possible and some impossible (to us) fruits, and cream, butter, honey and sweet cider, without extra charge. Nobody wastes liquors of the stronger kinds. It is the place to forget them in.

The climate, unlike that of Nice and the Riviera of Europe, does not shut up for the summer approaches. The thermometer don't range here over fifty degrees the year round. And there is none of that after four o'clock p. m. chill in the air, so keen on the west to bear in the Mediterranean climates.

Besides the great hotels, there are very many hospitable private houses, suitable to all incomes.

We who write this testify in no selfish interest. We have to go back to our world of Chicago, etc., but we want others to share in what we have found here, *strength and rest*, to take back with us. And so we close with the greeting of the ancient Manito of Santa Barbara: fathers to the world outside the cloistered peace of their lives.

Electro-Magnetism, the New Means of Cure

Dr. E. Robbins' Electro-Magnetic Institute, corner First and Spring streets, entrance on First st., is now fitted up, at considerable expense, with everything that is necessary to cure chronic and acute diseases. Office days by the finest electrical apparatus in the world, Turkish and Russian baths, also electric sulphur baths. Dr. Robbins has had several years' experience in the Australian colonies prior to coming to Salt Lake City, Denver and three years in Los Angeles, and hundreds of leading citizens can testify to the wonderful results of treatment of many cases of chronic diseases when all else had failed, and therefore all persons suffering should try this new remedy before abandoning all hope. After any treatment the sick and ailing are treated with the Massage treatment, by persons of their own sex. The Doctor's Diagnosis disease without explanation from the patient, free of charge. His office hours are 8 till 12, 1 to 5.

LARGE SALE
—OF—
Fruit and Agricultural LANDS
On the line of the S. P. R. R., near Alpine Station. By order of
THE ATLANTIC AND PACIFIC FIBRE CO. (Limited.)

One of the best opportunities for obtaining cheap first-class Fruit and Agricultural lands ever offered in the State of California.

On Tuesday, January 12, 1886,
AT TWO O'CLOCK P. M.
Sale will take place at the
VIENNA THEATER,
No 144 South Spring Street.

From 5,000 to 10,000 acres of the finest land in the county.

Flows of water is obtained from 6 to 20 feet deep. Directly on the line of the Artesian Belt.

The soil is a fine, rich sandy loam, well adapted to vineyards and deciduous fruits. Climate fine.

Title to a large portion is U. S. patent, and balance title derived from U. S. patent.

The principal value of these lands is the fact of their being foothills.

NOTE—This is one of the most important sales of the season, wheat lands are enabled to obtain large tracts of land at their own price; and no more healthy spot on the globe than at this point. By cars you can reach the tract in from 2½ to 3 hours' time from Los Angeles.

A map containing all the sections for sale may be seen at the office of John C. Bell, the Auctioneer, at 126 Nadeau Block.

We would advise any and all parties wishing to purchase to be sure and examine the grounds before the day of sale.

If desired, a gentleman will be deputied to show any intending purchasers the different sections.

The above is about 2½ hours' ride, all in Los Angeles county.

Any and all particulars may be learned of JOHN C. BELL, the Auctioneer, at 126 Nadeau Block. de25tf

A PILE OF COIN.

The December County Tax Collections Turned In.

Yesterday being the first Monday in the month, County Tax-Collector E. Hammond deposited in the county treasury the collections for December, as required by law. At 10 o'clock a big dray was backed up to the door of the Los Angeles National Bank, where the Collector makes his deposits during the month. Mr. Hammond drew the largest check ever cashed at any bank here—its round figures being $549,000; and it was promptly paid. The enormous load of gold was loaded on the dray and taken to the Farmers' and Merchants' Bank, where it was turned in to the County Treasurer. It was the heaviest single deposit ever made in a Los Angeles bank.

Historical Society.

The Historical Society of Southern California met in the City Courtroom last evening, General John Mansfield in the chair.

A communication was received from G. Butler Griffin, tendering his resignation as a member of the society, which was accepted.

Major Kinley stated that a lady of this city has in her possession an order issued by General Washington, in his own handwriting, shortly after the close of the Revolutionary war, and that the lady would, for a consideration, sell the same to the society. Major K. was instructed to procure information relative to this valuable historical relic and report at the next meeting.

H. D. Barrows offered a resolution, which was carried, requesting copies of the several newspaper publications in this locality to be presented to the society by the publishers for preservation.

The retiring President, General Mansfield, read his address, and then introduced the incoming President, Major Isaac Kinley, who read his inaugural address, which was full of suggestions as to the duty of the society in the future. He then appointed the following committees:

On Communications—H. D. Barrows, Rev. F. Adam and J. M. Guinn.

On Publications—Governor Mansfield, E. W. Jones, C. N. Wilson.

The People's Store's Cloak Sale.

Our cloak sale started in real earnest, and, in response to our advertisement, many availed themselves of our offering. There is one thing about the People's Store—there is no half work done there. When we determine to do a thing we do it. We are selling out our cloaks to-day, and sold more in one day than we have in the entire two months past. Every cloak in the stock must go. No person within reason can object to our prices on cloaks—they are less than the cost of making, not to speak of material or trimming. To-day our $4 cloaks go for $1; $4.50 cloaks for $1.39; our $20 and $25 cloaks for $12.50; our $20 braided Jersey cloth newmarkets will be sold to-day for $10; children's cloaks that were from $5 to $7.50, to-day $2.50. We have other special values on center tables throughout the store.

IN THE SUPERIOR COURT

Of the County of Los Angeles, State of California.

In the matter of the estate of Colin Ferguson, deceased.

Order to show cause why order of sale of real estate should not be made.

James A. Fisher, the administrator of the estate of Colin Ferguson, deceased, having filed his petition herein praying for an order of sale of the whole of the real estate of said deceased, for the purposes therein set forth.

It is therefore ordered by the Judge of said Court, that all persons interested in the estate of said deceased, appear before the said Superior Court on MONDAY, the 8th day of February, 1886, at 10 o'clock in the forenoon of said day, at the court room of said Superior Court, at the Courthouse in the city and county of Los Angeles, to show cause why an order should not be granted to the said administrator to sell so much of the real estate of the said deceased as shall be necessary.

And that a copy of this order be published at least four successive weeks in the Los Angeles DAILY TIMES, a new paper printed and published in said city and county of Los Angeles.

W. A. CHENEY,
Judge of the Superior Court.
